

**Eiyenze**  
INVESTMENT COMPANY LTD

# COMPANY PROFILE

# ABOUT US

## **Who We Are**

**Iyenze Investment Company Limited, based in Mwanza, Tanzania, is a leading consulting firm committed to providing specialized services with a strong emphasis on sustainability.**

**We offer diverse solutions in biodiversity and carbon assessment, develop detailed Project Design Documents (PDD) for Forest and Carbon Projects, and provide expert environmental management and auditing.**

Our services also cover occupational health and safety, water resource management, and hydrological studies. We specialize in feasibility studies for irrigation project, gender responsiveness, quality management strategies, and social impacts management.

Registered with the Business Registrations and Licensing Agency (BRELA) with Reg. No. 151-982-026, Iyenze Investment is dedicated to enhancing cost-effectiveness and environmental stewardship across various sectors, including natural resources, mining, agriculture, and energy.

Partnering with us means you'll receive unparalleled support in achieving your sustainability goals. At Iyenze, we are passionate about driving innovative, sustainable progress, ready to assist you in realizing a brighter future.

# **Our Vision**

---

**Our vision is to be a leading international consulting firm known for innovative solutions in environment, mining, and water resources, committed to excellence and sustainability, driving positive change, and fostering growth across industries and communities for lasting success.**

A photograph showing two individuals in high-visibility yellow vests and hard hats standing in a wooded area with dry, yellowish-brown grass. They appear to be measuring a tree trunk with a tool. The background consists of many thin, leafless trees under a clear sky. The image is partially overlaid by a dark green circular graphic on the right side.

# **Our Mission**

---

**Our mission is to advocate for sustainable development by promoting the responsible use of renewable resources, reducing pollution, and conserving biodiversity. We adhere to international standards, including ICMM Mining Principles, and prioritize public education to enhance natural resource management, accountability, and ethical practices in mining and development projects.**

# WHY CHOOSE US

Choosing Iyenze Investment Company Limited means partnering with a team driven by an unwavering enthusiasm to deliver excellence and exceed the needs of our clients. Our company's strength lies in the wealth of experience possessed by our environmental, biodiversity, carbon experts, and environmental engineers, who collectively boast over 15 years of practical consulting experience.

This depth of expertise ensures that our clients receive the highest quality work, backed by a profound understanding of the complexities and nuances within the environmental and sustainability sectors. With a commitment to delivering exceptional results and a track record of success, choosing us means choosing a partner dedicated to achieving your goals with precision and expertise.

# OUR DETAILED SERVICES

Ecosystem Management Solutions

Community Sustainability Initiatives

Biodiversity Assessment and Carbon Footprint Tracking

Pest Management and Educational Programs

Restoration and Decommissioning Strategies

Tailored Product and Service Solutions, including Mining Supplies, Chemicals, Equipment, and Construction Materials

Regulatory Assurance Services

Creative Branding and Sign Crafting

Latin name: *Phoenix dactylo*  
Common name: Date Palm  
Family: Arecaceae  
IUCN status: Least Concern  
Uses: Edible (Fruits)  
Colonization: Exotic

# ■ Ecosystem Management Solutions

- i. **Environmental and Social Impact Assessments (ESIA) & Management Plans (ESMP):**  
Conduct comprehensive evaluations of the environmental and social impacts of projects and prepare tailored Environmental and Social Management Plans to effectively manage and mitigate identified risks, ensuring compliance and community support.
- ii. **Environmental Monitoring and Auditing Services:**  
Offer rigorous environmental monitoring, including water, soil, and air quality assessments, alongside detailed environmental audits to evaluate compliance with regulations and performance standards, identifying areas for improvement and ensuring sustainable practices.

iii. **Water Resource Management and Studies:**

Provide in-depth hydrology, geological, and hydrogeological studies, along with water sampling and analysis, to assess water quality and system dynamics, followed by the design of sustainable water supply systems and stormwater management strategies.

iv. **Waste Management and Environmental Controls:**

Develop strategic waste management plans that minimize generation and environmental impact, alongside implementing comprehensive chemical management and environmental control measures to safeguard ecosystems and ensure regulatory compliance.

v. **Training, Awareness, and Safety Management Systems:**

Implement environmental management systems and safety management frameworks, providing training and awareness campaigns to promote best practices in environmental stewardship and compliance among stakeholders and within organizations.

# ■ Biodiversity Assessment and Carbon Footprint Tracking

- i. **Biodiversity Assessment and Carbon Stock Evaluation:**  
Conduct thorough assessments to evaluate biodiversity levels and associated carbon stocks within specific ecosystems, providing a foundational understanding for conservation efforts and carbon management strategies.
- ii. **Ongoing Biodiversity and Carbon Monitoring:**  
Implement continuous monitoring programs to track changes in biodiversity and carbon stocks over time, enabling clients to understand trends and make informed decisions for conservation and sustainability initiatives.

iii. **Biodiversity Action Plan Development:**

Create strategic Biodiversity Action Plans tailored to specific areas or projects, outlining actionable steps to conserve and enhance biodiversity while aligning with broader environmental goals.

iv. **Forest Carbon Project Design and Emission Factor Measurement:**

Prepare detailed Project Design Documents for forest carbon initiatives focused on carbon sequestration, alongside measuring emission factors for greenhouse gases to quantify impacts and improve project effectiveness.

v. **Biodiversity Offset Plans and Invasive Species Management:**

Develop comprehensive biodiversity offset plans to mitigate impacts on ecosystems and report on their effectiveness, while also providing strategies for managing and removing alien invasive species that threaten native biodiversity.

# ■ Restoration and Decommissioning Strategies

- i. **Site Assessment and Environmental Characterization:**  
Conduct thorough assessments and characterization of sites to understand existing environmental conditions, potential impacts, and baseline data essential for effective rehabilitation and closure planning.
- ii. **Strategic Closure and Rehabilitation Planning:**  
Develop comprehensive, strategic plans for site closure and rehabilitation to minimize long-term environmental impacts, promote ecosystem restoration, and ensure compliance with regulatory requirements.

iii. **Implementation of Rehabilitation Projects:**

Execute on-the-ground rehabilitation projects designed to restore sites to their natural or designated states, focusing on ecosystem recovery and sustainability in consultation with relevant stakeholders.

iv. **Stakeholder Engagement and Environmental Consultation:**

Facilitate engagement with stakeholders throughout the rehabilitation and closure planning processes, ensuring their concerns and inputs are integral to the development of plans and strategies.

v. **Post-Closure Monitoring and Reporting:**

Implement robust monitoring programs to evaluate the effectiveness of closure and rehabilitation efforts, providing ongoing reporting on post-closure environmental conditions and alignment with established closure criteria and objectives.

# ■ Regulatory Assurance Services

- i. **Environmental Legal Obligations Management:**  
Create and maintain comprehensive registers of environmental legal obligations to help organizations ensure compliance with regulatory requirements and avoid potential violations.
- ii. **ISO 14001:2015 Environmental Management System Support:**  
Conduct internal audits and provide expert support services for organizations pursuing ISO 14001:2015 certification, helping them establish effective environmental management systems.

iii. **Environmental Authorization Support Services:**

Assist organizations in navigating the process of obtaining necessary environmental authorizations for specific activities or projects, ensuring all legal requirements are met efficiently.

iv. **Comprehensive Legal Compliance Audits:**

Perform detailed legal compliance audits to assess adherence to environmental laws and regulations, identifying areas for improvement and proposing corrective actions to enhance compliance.

v. **Environmental Risk Assessments and Due Diligence:**

Conduct thorough environmental risk assessments and develop actionable plans to mitigate identified risks, along with regulatory environmental due diligence to evaluate potential liabilities related to projects, investments, or acquisitions.

# ■ Community Sustainability Initiatives

- i. **Social Baseline Surveys and Community Assessments:**  
Conduct comprehensive surveys to establish a baseline understanding of social conditions, demographics, and community dynamics, providing critical data for informed decision-making.
- ii. **Socio-Economic Impacts Assessments (SIAs):**  
Perform assessments to evaluate the potential social and economic impacts of projects on local communities, helping organizations understand and mitigate adverse effects while maximizing benefits.

iii. **Resettlement Action Planning and Support:**

Develop detailed Resettlement Action Plans (RAPs) to address impacts of resettlement, including strategies for compensation, livelihood restoration, and ongoing community support to facilitate smooth transitions for affected populations.

iv. **Stakeholder Engagement and Consultation Strategies:**

Design and implement effective stakeholder engagement processes and plans to ensure community involvement in decision-making and project development, fostering trust and collaboration.

v. **Community Development and Empowerment Plans:**

Create comprehensive community development plans that focus on enhancing infrastructure, education, healthcare, and economic empowerment initiatives, supporting the long-term well-being and resilience of local communities.

# ■ Pest Management and Educational Programs

- i. **Comprehensive Malaria Control Programs:**  
Implement effective malaria control strategies, including indoor residual spraying (IRS), fogging, and larvicide application, aimed at reducing malaria transmission by controlling mosquito populations.
- ii. **Insect and Rodent Fumigation and Control:**  
Utilize fumigation techniques to manage and reduce populations of harmful insects and flies, alongside targeted control measures for rodents and bats to mitigate public health risks and protect infrastructure.

iii. **Safe Handling of Bees:**

Provide safe and responsible handling and relocation services for bees minimizing human-wildlife conflicts while ensuring the safety and well-being of individuals and local wildlife.

iv. **Vector Control Planning and Strategy Development:**

Develop comprehensive vector control plans tailored to specific areas, targeting disease-carrying vectors such as mosquitoes and providing strategies to effectively manage their populations.

v. **Training and Education in Beekeeping and Vector Management:**

Offer training programs on modern, sustainable beekeeping practices and vector control techniques, equipping individuals and communities with the knowledge and skills to promote effective public health measures.

# ■ Tailored Product and Service Solutions, including Mining Supplies, Chemicals, Equipment, and Construction Materials

- i. **Custom Mining Supplies and Equipment Solutions:**  
Provide tailored mining supplies and equipment, including drilling tools, safety gear, and processing materials, designed to meet the specific needs of mining operations and enhance operational efficiency.
- ii. **Specialized Chemical Solutions:**  
Supply high-quality chemicals for various applications in mining and industrial processes, ensuring compliance with safety and environmental regulations while optimizing performance.

iii. **Construction Materials Supply:**

Offer a range of construction materials tailored to project specifications, including aggregates, cement, and specialty building products, ensuring quality and reliability for construction projects.

iv. **Logistical Support and Supply Chain Management:**

Provide comprehensive logistical support to streamline the procurement and delivery of mining supplies, chemicals, and construction materials, ensuring timely availability and reducing operational downtime.

v. **Consultation on Equipment Selection and Utilization:**

Offer expert consultation services to help clients select the right equipment and materials for their specific needs, guiding optimal utilization to enhance productivity and safety in operations.

# ■ Creative Branding and Sign Crafting

## i. Custom Branding Solutions:

Develop unique and impactful branding strategies that reflect the essence of clients' businesses, including logo design, brand identity creation, and visual messaging to enhance recognition.

## ii. Signage Design and Fabrication:

Provide comprehensive signage services, from concept design to fabrication, including indoor and outdoor signage, channel letters, banners, and directional signs, ensuring high visibility and brand consistency.

iii. **Environmental Graphics and Wayfinding Systems:**

Create visually appealing environmental graphics and wayfinding systems that enhance the user experience in commercial spaces, promoting brand engagement and navigation ease.

iv. **Promotional Materials Design:**

Design and produce a variety of promotional materials, including brochures, flyers, posters, and branded merchandise, to support marketing efforts and increase brand awareness.

v. **Brand Strategy Consultation and Workshops:**

Offer consultations and workshops to help clients develop effective branding strategies, focusing on storytelling, market positioning, and audience engagement to enhance overall brand impact.

# **COMPANY EXPERIENCE**

## **Services for ecosystems management and community development**

The company has recently gained extensive experience by providing consistent and reliable services to various clients. These services include:

- i. Providing Vector control training to Bulyanhulu Gold Mine staff at the Department of Environment.
- ii. Monitoring the water reticulation system for Bulyanhulu Gold Mine in Tanzania.
- iii. Establishing a Baseline on the Status of Biodiversity and Ecosystems in the Sumbawanga Landscape, Tanzania for SNV Netherland's SUSTAIN Eco Project.
- iv. Conducting a Comprehensive Biodiversity Assessment and Establishing a Biodiversity Management Plan for New Luika Gold Mine (Shanta Gold).
- v. Providing Modern Beekeeping Training to Eight Villages Adjacent to Ipole WMA for ADAP's Sustainable Management of the Ipole Wildlife Management Area (WMA) project.
- vi. Providing water sampling services for SGS.
- vii. Tree Care and Management of the Planted trees (Rehabilitation) at the TSF & Sector A, Buzwagi, Gold Mine, Tanzania

## Supply and logistic services offered

- i. Supply of Radio meter, Anamometers, Antiscalant to SGS
- ii. Supply of Potable pH meter, Sampling gears, Multi parameters checker - HORIBA to TanzGraphite
- iii. Supply of Mosquito repellent (No bite), mosquito insecticide, med soap, mosquito nets, welding materials, sim tanks, dust bins, and stationaries to BOART LongYear - BLY
- iv. Supply of Bendicarbs North Mara Gold Mine
- v. Supply of Water Level Meter to City Engineering
- vi. Supply of Bismuth Nitrate and Hypo Phosphorus Acid to MSALAB
